GET AHEAD

As a creation of only two products, palm leaves and water, our compostable, disposable palm leaf plates and bowls are completely non-toxic and chemical free. While we can't promise that your meal will be guilt-free, we can promise that your dinnerware will be!

COMPOSTABLE

Apart from being BPI-certified compostable, tests have shown that soil containing VerTerra compost enhances plant growth by over 15%!

DURABLE & VERSATILE

VerTerra palm dinnerware can withstand hot food, liquids and oils. Aside from acting as a natural insulator, our dinnerware will not leak or impart taste.

SUSTAINABLE

Our dinnerware is made from fallen palm leaves (that would otherwise be burned), steam, heat and pressure. No plants or trees are cut or harmed during this process.

MICROWAVE & OVEN SAFE

VerTerra Palm Dinnerware can withstand up to 2 minutes in the microwave on a high heat setting or up to 45 minutes in the oven on 350° as long as they are at least 6" from the heat source.

BIODEGRADABLE

VerTerra Dinnerware From Fallen Leaves will naturally biodegrade at home or in an industrial compost without using chemical agents.

SUN RESISTANT

VerTerra's compostable, disposable palm leaf plates and bowls are completely sun resistant and perfectly safe to use at outdoor events, such as picnics, BBQs and festivals.

A portion of the proceeds from the purchase of Verterra branded items will be donated to the National Park Foundation.

As a creation of only two products, palm leaves and water, our compostable, disposable palm leaf plates and bowls are completely non-toxic and chemical free. While we can't promise that your meal will be guilt-free, we can promise that your dinnerware will be!
