## SUSTAINABLE PRACTICES

### Sustainable sourcing and delivery practices:

- All deliveries routes are mapped efficiently to limit overall usage of fuel and emissions
- All of our facilities are Sedex (SMETA) certified - Supplier Ethical Data Exchange - which is an online system that allows suppliers to maintain data on ethical & responsible practices and allows them to share this information with their customers. This consists of 4 key pillars - Labor Standards, Health & Safety, Environment and Business Ethics. All four pillars take into account legal requirements, international standards and good practice.
- All import suppliers are required to submit a 3rd party social responsibility audit through our comprehensive supplier approval program and meet requirements of SMETA pillar4.

### Sustainable Practices at our Facilities:

- Energy efficient lighting
- Motion sensors for lighting in inactive areas
- Solar Energy -Largest solar project on Long Island - Generating 1.4 million kilowatt hours of renewable energy through a 1.24 MW solar PV system - offsetting site's entire energy requirements.

### Sustainable Materials at our Facilities:

- Responsibly Sourced Palm Oil available upon request
- Responsibly sourced Cocoa available upon request (Fair Trade Certified)
- Recycled paperboard (post-consumer waste)
- Recycled corrugated (pre and post-consumer waste)

### Recycled Materials at our facilities:

- Cardboard
- Metal cans and other metals
- Inks and cartridges
- Batteries • Paper
- Wood pallets • Some plastics

### Responsible and Ethical Sourcing of Products

#### Prop 65 Testing

#### FSVP Foreign Supplier Vendor Program

#### Health and Safety Programs - OSHA Compliant

A portion of the proceeds from sales of the ACE line will be donated to the National Park Foundation.

We are honored to support the work of the official charity of America's National Parks.

## Check out our NEW Custom Printed Compostable EcoBags!
