SUSTAINABLE PRACTICES

Sustainable sourcing and delivery practices:

- All deliveries routes are mapped efficiently to limit overall usage of fuel and emissions
- All of our facilities are Sedex (SMETA) certified - Supplier Ethical Data Exchange - which is an online system that allows suppliers to maintain data on ethical & responsible practices and allows them to share this information with their customers. This consists of 4 key pillars - Labor Standards, Health & Safety, Environment and Business Ethics. All four pillars take into account legal requirements, international standards and good practice.
- All import suppliers are required to submit a 3rd party social responsibility audit through our comprehensive supplier approval program and meet requirements of SMETA pillar4.

Recycled Materials at our facilities:

- Cardboard
- Metal cans and other metals
- Inks and cartridges
- Batteries • Paper
- Wood pallets • Some plastics

Sustainable Practices at our Facilities:

- Energy efficient lighting
- Motion sensors for lighting in inactive areas
- Solar Energy - Largest solar project on Long Island. Generating 1.4 million kilowatt hours of renewable energy through a 1.24 MW solar PV system - offsetting site's entire energy requirements.

Sustainable Materials at our Facilities:

- Responsibly Sourced Palm Oil (available upon request)
- Responsibly sourced Cocoa (available upon request) (Fair Trade Certified)
- Recycled paperboard (post-consumer waste)
- Recycled corrugated (pre and post-consumer waste)

We're proud to give back!

A portion of the proceeds from every ACE line purchase will do towards preserving the natural beauty of North America's parks.

Check out our CUSTOM Printed Compostable EcoBags!
